- ✓ Provides far more efficiency, accuracy, and tooling life than a HSS hole saw.
- ✓ Turbo<sup>TM</sup> Mini Cutters only cut the periphery of the hole, with the centre slug being ejected, therefore requiring less power and more speed.
- ✓ Manufactured from premium quality high-speed steel (HSS) and fully ground for a quality burr-free finish.
- ✓ Easily adapts for use with a hand drill and 13mm chuck, by using its spring-loaded arbor system (on an 8mm shank with 3 flats).
- ✓ Available to purchase as individual sizes or as a handy kit, a must for every toolbox!
