#### PART OF A NEW GENERATION RANGE OF PREMIUM PORTABLE MAGNETIC DRILLING SOLUTIONS, DESIGNED TO MAXIMISE PRODUCTIVE DRILLING.

The PRO-152T drilling machine is designed for large hole making and very big tapping applications. The powerful 2300 W variable speed motor enables milling capacity up to 150 mm (6") and drilling capacity up to 47 mm (1-7/8").

The machine's forward and reverse work modes allow thread cutting up to M42 with a new tapping system.

The four-speed gearbox with continuous speed adjustment allows to set the optimal speed depending on diameter, steel grade or tool quality. An intelligent speed control system maintains constant motor speed regardless of changing loads. The innovative 360-degree LED indicator facilitates proper machine operation and increases work safety.

### STEELBERST® **FEATURES AND BENEFITS**
