MINIBEAST ULTRA

JEI
Solutions
Built for Industry

NEW

**WITH ALL THE FEATURES OF THE
MINIBEAST, YET DESIGNED
FOR MORE CHALLENGING
HOLE MAKING APPLICATIONS.**

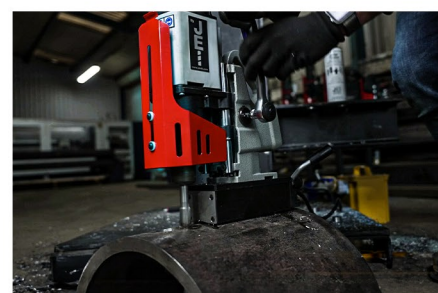

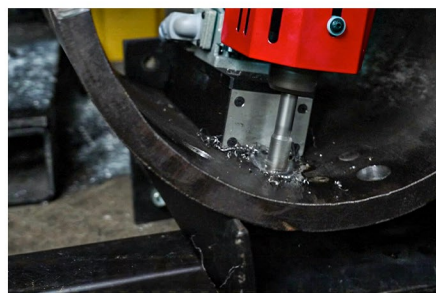

- ✓ Permanent Safe-Base Magnet
- ✓ Detachable ratchet handle system
- ✓ For left or right hand operation in tight access areas
- ✓ Designed for drilling pipes, convex or concave surfaces
- ✓ V-Block magnet design allows holding on pipes over 80mm Ø

The MINIBEAST ULTRA™ is specifically designed for situations that may involve power outages, such as drilling into walls. Its magnetic base, powered by strong neodymium magnets, allows it to operate without electricity, ensuring reliability and convenience even in the absence of power.

A key feature of this machine is its switchable holding force, which enables easy and precise positioning of the drill. By partially engaging the magnetic base, users can adjust the drill's position with accuracy, enhancing the efficiency and effectiveness of the drilling process.

This drill is designed to accommodate various material shapes, including convex surfaces with a minimum diameter of 80 mm and concave surfaces with a minimum diameter of 1000 mm. Its versatility allows users to easily tackle a wide range of drilling tasks, making it a practical choice for diverse applications.

MINIBEAST ULTRA™ SPECIFICATIONS

Model:	MINIBEAST ULTRA
Power:	1020 W
Weight:	14kg (31lbs)
Max Milling Capacity:	36 mm (1 7/16")
Max Drilling Capacity:	12 mm (0.47")
Stroke:	70 mm (2 3/4")
Max Depth Of Cut:	35 mm (1 3/8")
Motor Speed (Under Load):	350 RPM
Minimum Workpiece Thickness:	5 mm (0.24")
Tool holder:	19 mm (3/4") Weldon
Magnetic Base Dimensions:	243 mm × 218 mm × 96 mm 9.57" × 8.58" × 3.78"
Magnetic Base Hold Force:	612 kgf (6000 N)
