

## Cutting Oils & Lubricants

**JEI's range of cutting oils and lubricants are specially formulated to use with the Turbo™ range of annular cutting tools, taps, twist drills and countersinks.**

- Increases tool life.
- Ensures positive slug ejection (when used with cutters).
- Maximise tool life – reduce heat build-up in the tool.
- Increase productivity.

### Soluble Cutting Oil

*turbo* Steel

- Mix (dilute) with water, then fill up the machine coolant bottle for through the spindle cooling.
- Use with Turbo Steel cutters for best results.

PART NUMBER	DESCRIPTION
JEIOIL-SOL	Cutting oil soluble, dilutes 20:1, 1 L
JEIOIL-SOL/5	Cutting oil soluble, dilutes 20:1, 5 L
JEIOIL-SOL/25	Cutting oil soluble, dilutes 20:1, 25 L

### Neat Cutting Oil

*turbo* Tough

- Ideal for drilling and tapping.
- Increases performance when drilling tough materials.
- Best results with Turbo Steel and Turbo Tough cutting tools.

PART NUMBER	DESCRIPTION
JEIOIL-NEAT	Cutting oil neat, 1 L
JEIOIL-NEAT/5	Cutting oil neat, 5 L

### Cutting Spray

*turbo* Tough

- For cutting, drilling, countersinking, tapping and reaming.
- Enhanced results on tough materials.
- Best results with Turbo Tough cutting oils.
- Features a unique 360° valve to ensure spraying at all angles.

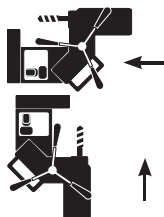

PART NUMBER	DESCRIPTION
JEIOIL-TTA	Turbo tough drill & tap aerosol, 500 ml

### Cutting Paste for overhead drilling

*turbo* Endurance+

A non-drip, revolutionary aerosol magnetic drilling paste formulated for overhead and vertical drilling. Ideal for:

- Steel building.
- Structural bridgework.
- Offshore construction.
- Hazardous environments.

PART NUMBER	DESCRIPTION
JEIOIL-TEP	Endurance+ magnetic drilling paste, 500 ml

Soluble cutting oil with MiniBeast

Endurance+ spray drilling upside down
